

Tippie Quick Guides

How to find a course syllabus in MyUI

1. To find a specific course's syllabus, log into MyUI and navigate to the Courses/Registration page.

2. Select the correct semester then fill in the course subject and course number. (Ex: Fall 2020, STAT:1030, Statistics for Business)

Course Type	
Session	<input type="text" value="Fall 2020"/>
Course Subject	<input type="text" value="STAT"/>
Course Number	<input type="text" value="1030"/>

For courses that have a lecture and discussion, the syllabus will usually be posted in the lecture section but check both to be sure.

- Once you have found your course, click on the hyperlink of the course number to open the course description page. Look along the left-hand side of the page for the label "Syllabus."

General Catalog	Descriptive statistics, graphical presentation, elementary probab
Syllabus	syllabus-1030-bognar-fall19.pdf
Registration Information	Students may receive credit for only two of these courses: STAT: given only if the course is taken before STAT:1020, STAT:1030, c
Approved GE	None
Prerequisites	None This course does not have an enforceable prerequisite ✓
Requirements	None

Expert tip: Faculty usually do not post their syllabus on MyUI until the beginning of each semester. It's helpful to look at a past syllabus to plan what you might want to enroll in during early registration. Consider looking at the syllabus from the current semester or a previous semester (e.g., for fall 2020, look at spring 2020 or fall 2019). You can change the session at the top right corner of the page:

Session Fall 2019 ▼
